

Publish your research in one of our flagship journals

“I will continue to encourage my graduate students to submit their research to IOP Publishing’s highly prestigious journals.”

PROFESSOR PEIXIANG LU, HUAZHONG
UNIVERSITY OF SCIENCE AND TECHNOLOGY

www.iop.org/journals

IOP Publishing

Make IOP your first choice for international research

Our flagship journals offer you the perfect forum for reaching your peers.

Read recent papers from Chinese authors

Determination of the natural frequency of a cantilevered ZnO nanowire resonantly excited by a sinusoidal electric field **Y Shi, C Q Chen, Y S Zhang, J Zhu and Y J Yan**
Nanotechnology 2007 **18** 075709

First principles calculation of phonon dispersion, thermodynamic properties and B1-to-B2 phase transition of lighter alkali hydrides **W Yu, C Jin and A Kohlmeyer**
J. Phys.: Condens. Matter 2007 **19** 086209

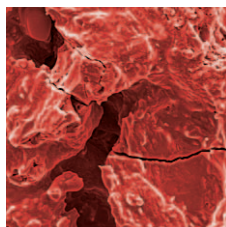

Ab initio lattice dynamics evidence for the broken-symmetry phase of solid hydrogen **L J Zhang, Y L Niu, T Cui, Y Li, Y Wang, Y M Ma, Z He and G T Zou**
J. Phys.: Condens. Matter 2006 **18** 9917–9927

Control of quantum paths in high-order harmonic generation via a $\omega+3\omega$ bichromatic laser field
W Cao, P Lu, P Lan, W Hong and X Wang
J. Phys. B: At. Mol. Opt. Phys. 2007 **40** 869–875

From clusters to phase diagrams: composition rules of quasicrystals and bulk metallic glasses **C Dong, Q Wang, J B Qiang, Y M Wang, N Jiang, G Han, Y H Li, J Wu and J H Xia**
J. Phys. D: Appl. Phys. 2007 **40** R273–R291

Symmetries and invariant solutions for the geometric heat flows **Q Huang and C Qu**
J. Phys. A: Math. Theor. 2007 **40** 9343–9360

Analysis of the Σ - n form-factors with light-cone QCD sum rules **Z-G Wang**
J. Phys. G: Nucl. Part. Phys. 2007 **34** 493–504

Arrested cracks in porous SiC quenched from 1200°C to 20°C
S Ding et al 2007 *J. Phys. D: Appl. Phys.* **40** 2138–2142.

Professor Peixiang Lu, Huazhong University of Science and Technology

“J. Phys. B is highly regarded across the world as well as in China.

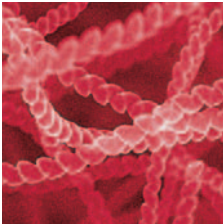

I will continue to encourage my graduate students to submit their research to IOP Publishing’s journals.”

Dr Z G Wang, North China Electric Power University

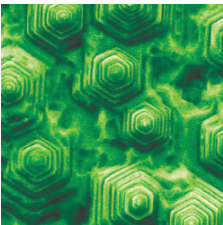

“J. Phys. G is a prestigious journal and I will submit more of my high quality papers to it in the future.”

Professor C Q Jin, Institute of Physics, Chinese Academy of Sciences

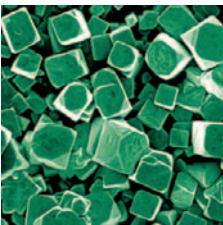

“We are proud of our paper being regarded as one of the top ten papers in JPCM in the past year. I hope to submit more high quality works to the journal in the near future.”

An SEM image of carbon nanocoils synthesized on copper micro-tips at 600 °C **W Y Sung et al** 2007 *Nanotechnology* **18** 245603.

SEM image of AlGaIn epilayer **X L Wang et al** 2007 *J. Phys.: Condens. Matter* **19** 176005.

Polycrystalline α -Hg₁₂ thick film deposited at 120 °C **Yue-Tsang Shiu et al** 2007 *J. Phys. D: Appl. Phys.* **40** 2170–2175.

Benefits to authors

Publishing your work with IOP offers you:

Opportunities for citation

These journals have a solid citation record with 2006 ISI® Impact Factors of 1.566–3.037. You can receive maximum visibility and citation opportunities for your work thanks to services such as free online access to articles for 30 days from web publication. Your article could also be chosen to appear in IOP Select, a free service which showcases the very best research published by IOP.

Online functionality

Use our web-based submission facility which is simple to navigate and will send you quick confirmation that we have received your article. You can also follow the status of your submission using the online tracking service.

Quality assurance

To ensure your work is produced to the highest standards all submissions are rigorously peer reviewed by independent referees. All published articles are professionally typeset and proof read.

Fast publication

The median receipt-to-web publication time for our flagship journals was 109 days in 2006. IOP is constantly developing the publication service offered to authors and as a result publication times are improving every year.

International visibility

Researchers in over 4000 institutions, in more than 180 countries, regularly visit our website and full-text downloads for all IOP journals are increasing every year. This, together with the promotion of IOP journals at international conferences, ensures that your work reaches a global audience.

Professor C Dong, Dalian University of Technology

“It is a great honour to have achieved a high quality rating for our paper which was published in J. Phys. D.”

Professor J Zhu, Tsinghua University

“It is our great pleasure to be published in Nanotechnology and we will submit more quality papers to the journal in the future.”

Professor Y M Ma, Jilin University

“JPCM is a very prestigious journal and we will submit more of our high quality papers to it in the future.”

Professor C Z Qu, Northwest University

“We will submit more of our high quality papers to J. Phys. A in the future.”

How to publish with IOP

You can submit your article in one of the following ways:

- online at authors.iop.org/submit
- e-mail files as attachments to mingfang.lu@iop.org and iopchina@aphy.iphy.ac.cn

Detailed information on how to prepare and submit an article for publication can be found on our website at www.iop.org/journals/nfa.

For further information on titles published by IOP:
