Teachers Awards | Scotland 2019

Nomination Form

Notes for referees

Nominations can come from a variety of sources, including head teachers or colleagues. Referees may, if they wish, use the referee pro-forma to submit their reference, but a separate sheet is also acceptable.

Supporting statements

A supporting statement from the referee should outline the reasons for making the nomination. The statement, which should not exceed approximately 400 words, could include comments on Teaching Excellence, Support for Colleagues, Work Beyond the Classroom, and Work with the Wider Education Community.

The panel is looking for teachers who:

- are outstanding teachers of physics;
- have inspired pupils and colleagues;
- have made physics/science exciting and relevant;
- have made an effort beyond the call of the timetable;
- have professionally engaged with others in the wider education community.

A minimum of 7 years' teaching experience is typical for those receiving the awards. Remember that all of the teachers nominated for awards are very good teachers. The selection panel is looking for those who are outstanding.

Entries by 1 March 2019

Please return completed nomination forms and supporting evidence to:

Stuart Farmer
IOP Education Manager (Scotland)
Email: stuart.farmer@iop.org

The selection panel will use these initial nominations to draw up a short list. A second supporting statement will then be requested for successful nominees. The second referee need not be from a different establishment, but the selection panel would find another perspective very helpful.

In addition, further evidence (eg from colleagues, advisers, Institute branch representatives, parents and students) should be provided.
