

## **Student Conference 2009**

**Institute of Physics, 76 Portland Place, London W1B 1NT**

**1 December 2009 at 1:30 pm**

### **Call for Papers**

The IOP Printing and Graphics Science Group annual Student Conference is a forum where recent work in the group's subject areas at postgraduate level is presented. This year the conference is being held at the headquarters of the Institute of Physics in London.

Presentations are sought on any subject related to printing and graphics technology and science. Short abstracts (approximately half an A4 page, possibly 6 references) summarising the intended presentation should be sent by email to Dr. Alan Hodgson ([ahodgson@mmm.com](mailto:ahodgson@mmm.com)).

Potential topics could include but are not restricted to the physics in graphics arts technologies, printing, packaging and papermaking or new developments such as displays, lighting and printed electronics.

The conference is an opportunity to meet students from around the UK who are working in these fields, and to show research that you have recently completed or have in progress.

Abstracts should arrive by 9 September 2009.

Registration is free and funds are available to cover basic travel expenses for speakers.

The meeting is open to all, whether IOP members or not. It will be preceded by the AGM of the Printing and Graphics Science Group which will be announced separately.
