Academic departments wishing to submit applications for Accreditation are invited to seek further information from the Accreditation Officer at

The Institute of Physics, 76 Portland Place, London W1B 1NT

INSTITUTE OF PHYSICS

The Institute of Physics is a leading international professional body and learned society, established to promote the advancement and dissemination of a knowledge of and education in the science of physics, pure and applied. The Institute has a world-wide membership and is a major international player in:

- Scientific publishing and electronic dissemination of physics;
- Setting professional standards for physicists and awarding professional qualifications;
- Promoting physics through scientific conferences, education and science policy advice.

The Institute works in collaboration with national physical societies, sharing information and working jointly to promote the interests of physics, and makes its educational materials, policy statements and other services available internationally. It plays an important role in transnational societies such as the European Physical Society and represents British and Irish physicists in international organizations.

In Great Britain and Ireland the Institute is active in:

- Providing support for physicists in all professions and careers;
- Encouraging physics research and its applications;
- Providing support for physics in schools, colleges and universities;
- Influencing government and informing public debate.

THE CHARTER

The Institute of Physics is charged by Royal Charter

“..to promote the advancement and dissemination of a knowledge of and education in the science of Physics, pure and applied...”

FOREWORD

Since the 1970s, the Institute of Physics has carried out an assessment of Physics and Physics-related courses at Institutions throughout the UK and Ireland. The purpose of such assessment was to identify those courses which would satisfy the academic requirements for Membership of the Institute.

In 1993, the Council of the Institute authorised the introduction of a new, formal process of Accreditation.

The primary aims of Accreditation by the Institute are:

1. To provide an independent, rigorous and valid assessment of physics degree courses;
2. To provide a means of supporting the standing of individual physics degree courses and physics departments;
3. To make it easier to establish and promote the standing of UK degree course in the rest of Europe and in the wider international context;
4. To give potential students a guarantee that a course can satisfy the academic requirements for Membership and provide a route to Chartered Physicist Status;
5. To provide a means of enhancing the standing of physics and physicists.

In 2007 the Institute of Physics revised the requirements for Chartered Physicist status. The current educational requirement for CPhys is an Institute of Physics accredited integrated Masters degree. Students with an accredited bachelors degree partially fulfil the educational requirements for CPhys but will have to demonstrate equivalence to an accredited integrated Masters degree during the application process.

Accreditation is subject to periodic review and only undergraduate honours and integrated Masters degrees are included. The Register is not a comprehensive list of degree programmes and exclusion of a degree does not necessarily imply that it does not meet the standards for accreditation.

FORMAT OF THE ENTRIES

Degree programmes are listed under their respective Institutions in the following format:

Degree Designation	Degree Title	UCAS Code	Accreditation Review Date
BSc	Physics with Astrophysics	F3F5	30 Nov 2009
MPhys	Physics	F303	30 Nov 2009

All degree programmes are at Honours level. Provisional accreditation indicates that the degree programme is new and has not yet had a cohort of students graduate.

Usually the review date will be the same for all degrees at an Institution; where this is not the case the reason would normally be that students will not graduate with the degree in question past this date.

INSTITUTIONS IN ENGLAND

University of Bath

Accreditation

BSc	Physics	F300	30 Nov 2009
BSc	Physics with Placement	F301	30 Nov 2009

Provisional Accreditation

BSc	Physics with Philosophy	F3V5	30 Nov 2009
BSc	Physics with Finance	F3N3	30 Nov 2009
BSc	Physics with Computing and IT	F3G5*	30 Nov 2009
MPhys	Physics with Philosophy	F3V5	30 Nov 2009

Victoria University of Manchester only

University of Manchester Institute of Science and Technology

UMIST has merged with the Victoria University of Manchester to form the new University of Manchester. Students will continue to graduate from UMIST programmes for the next few years.

Accreditation

BSc	Physics	F300	30 Nov 2009
BSc	Physics with Astrophysics	F3F5	30 Nov 2009
BSc	Physics with Computational Physics	F376	30 Nov 2009

BSc	Physics with Industrial Placement	F302	30 Nov 2009
BSc	Physics with Optoelectronics	F368	30 Nov 2009
BSc	Mathematical Physics	F3G1	30 Nov 2009
MPhys	Physics	F303	30 Nov 2009

MSci	Physics with Theoretical Astrophysics	F345	30 Nov 2009

Nottingham Trent University

Degrees shown as both accredited and provisionally accredited in the list below are programmes that have been recently revised. The new curriculum is significantly different to that of the old programmes so are provisionally accredited for those entering in 2006 onwards.

Accreditation

BSc	Physics	F300	30 Nov 2007
BSc	Applied Physics	F310	30 Nov 2007
BSc	Physics with Astrophysics	F3F5	30 Nov 2007
BSc	Physics with Forensic Applications	F3F4	30 Nov 2007
BSc	Physics with Biomedical Physics	F350	30 Nov 2007
BSc	Computational Physics	F343	30 Nov 2007

Provisionally Accredited

BSc	Physics	F300	30 Nov 2007
BSc	Quantum and Cosmological Physics	F392	30 Nov 2007

BSc	Physics with Astrophysics	F3F5	30 Nov 2007
BSc	Astronomy and Physics	FF53	30 Nov 2007
BSc	Physics with Forensic Applications	F3F4	30 Nov 2007
MSci	Physics	F311	30 Nov 2007
MSci	Quantum and Cosmological Physics	F393	30 Nov 2007

Open University

Accreditation

BSc/BA * Various course combinations 30 Nov 2009

* Contact the Institute of Physics Accreditation Officer for a list of courses leading to an accredited degree.

BSc	Physics (4 years-wide entry)	F301	30 Nov 2009
BSc	Physics with Atmospheric Physics	F363	30 Nov 2009
BSc	Physics with Planetary and Space Physics	F364	30 Nov 2009
BSc	Computer Science/Physics	FG34	30 Nov 2009
BSc	Geography and Physics	FF38	30 Nov 2009
BSc	Mathematics/Physics	FG31	30 Nov 2009
BSc	Physics with Business and Management	F3N1	30 Nov 2009
BSc	Physics with Education	F3X3	30 Nov 2009
BSc	Physics with French	F3R1	30 Nov 2009

BSc	Physics with German	F3R2	30 Nov 2009
BSc	Physics with Spanish	F3R4	30 Nov 2009
MPhys	Physics	F303	30 Nov 2009
MPhys	Physics with Atmospheric Physics	F365	30 Nov 2009
MPhys	Physics with Planetary and Space Physics	F366	30 Nov 2009

Cardiff University

Accreditation

BSc	Physics	F300	30 Nov 2009
BSc	Astrophysics	F511	30 Nov 2009
BSc	Physics with Astronomy	F3F5	30 Nov 2009
BSc	Theoretical and Computational Physics	F340	30 Nov 2009
BSc	Physics and Music	FW33	30 Nov 2009
BSc	Physics with Medical Physics	F350	30 Nov 2009
BSc	Chemistry and Physics	FF13	30 Nov 2009
BSc	Computing and Physics	FG34	30 Nov 2009
BSc	Mathematics and Physics	FG31	30 Nov 2009
MPhys	Physics	F303	30 Nov 2009
MPhys	Astrophysics	F510	30 Nov 2009
MPhys	Physics with Astronomy	F3FM	30 Nov 2009
MPhys	Engineering Physics	F311	30 Nov 2006

University of Wales – Swansea

Accreditation

BSc	Physics	F300	30 Sep 2007
BSc	Physics incorporating a Foundation Year	F301	30 Sep 2007
BSc	Physics with Laser Physics	F368	30 Sep 2007
BSc	Physics with Medical Physics	F370	30 Sep 2007
BSc	Physics with Particle Physics and Foundations of Cosmology	F3F5	30 Sep 2007
BSc	Physics and Mathematics	FG31	30 Sep 2007
MPhys	Physics	F303	30 Sep 2007

Provisional Accreditation

BSc	Physics with Sports Science	F3B6	30 Sep 2007
BSc	Physics and Computer Science	FG35	30 Sep 2007
BSc	Physics and Chemistry	FF13	30 Sep 2007
BSc	Physics with a Year Abroad	F302	30 Sep 2007

Join the Institute of Physics!

Every year, many students and graduates in physics and related disciplines choose to join the Institute. Here are some of the reasons why -

- Membership of Nexus, the network of physics students and university physics societies: Nexus produces *Nexus News* magazine for student members, and arranges social events and trips
- Complimentary copies of our monthly magazine *Physics World*, keeping you in touch with latest news and developments; also *Young Professionals News* for graduates
- Personal and career development materials at careers.iop.org. Development paths to chartered physicist, engineer or scientist as well as continuing professional development to keep you ahead in the job market, throughout your career.
- Careers information and guidance on finding a job or further course of study; contact with employers of physics graduates
- Access to the Institute's site members.iop.org for PhysMail, our free web based email service, the electronic register of members and other member services
- Reduced fees for attendance at Institute conferences and courses; travel bursaries for postgraduates
- Events and activities with subject Groups and regional Branches
- Your Institute diary, plus discounts on Institute-published books and journals
- Use of Headquarters' facilities, including a room for members with meeting space, photocopying, fax, computer and internet access as well as refreshments and reading materials
- The entitlement, for all Institute members of graduate status, to use designatory letters after their name

Application forms are available from our Membership Department, at

The Institute of Physics, 76 Portland Place, London W1B 1NT.
Email: membership@iop.org

Online application is possible through our web-site at
<http://www.iop.org/Membership/index.html>

The Institute of Physics is a scientific membership organisation devoted to increasing the understanding and application of physics. It has an extensive worldwide membership (currently over 34,000) and is a leading communicator of physics with all audiences from specialists through government to the general public. Its publishing company, IOP Publishing, is a world leader in scientific publishing and the electronic dissemination of physics
