General information

The information in this booklet was compiled by requesting up-to-date information from the various departments and/or by searching the departmental websites. To the best of our knowledge, the information in this booklet is considered to be accurate at the time of publication.

Further information on higher education institutions with a provision for physics in the UK and Ireland can be obtained from the Higher Education and Research section of the Institute's website at <http://www.iop.org>.

The Institute of Physics is a scientific membership organisation devoted to increasing the understanding and application of physics. It has an extensive worldwide membership and is a leading communicator of physics with all audiences from specialists through government to the general public. Its publishing company, IOP Publishing, is a world leader in scientific publishing and the electronic dissemination of physics
