Become a Chartered Engineer (CEng)

“Attaining Chartered Engineer (CEng) status has helped me progress my career, and it was reassuring to know that I could apply for CEng with a physics-based degree.”

Jeroen Veenstra CEng CPhys MInstP
Team Leader, Reactor Technology, EDF Energy
Why make an application for Chartered Engineer?

- Demonstrate competence in a competitive field
- Help you progress in your engineering career
- Cement your position as a senior engineer
- Show commitment to continuing your professional development

Chartered Engineers are characterised by their ability to develop appropriate solutions to engineering problems, using new or existing technologies, through innovation, creativity and change.

“CEng status has been valuable for me in being able to mentor staff within our organisation, and therefore play a valuable part in their development.”

Dr Andre Clarke CEng CPhys FInstP
Fleet Critical Programmes, EDF Energy Generation

What does Chartered Status mean to employers?

- Provides evidence of employers’ commitment to society and high standards.
- Indicates that the employee values and abides by the IOP code of conduct.
- Facilitates both staff benchmarking and competencies.
- Assists with promotion and salary benchmarking.
- Supports the recruitment process.
- Is valued by clients and external stakeholders
What are the requirements to make an application for CEng?

The benchmark for CEng is an accredited MEng degree coupled with significant work experience, which should demonstrate sustained experience. If you don’t hold an accredited MEng degree, then the basic requirements are that you have a degree in physics or a related subject and demonstrate the missing engineering parts of your degree through a MEng equivalence report; this is a technical project which is undertaken in the 4th year of an MEng degree and should demonstrate the depth and breadth of your engineering knowledge in application.

“Making an application for CEng does take time and effort, and it’s this time and effort, and the fact that you must take time to reflect on your achievements, that ultimately makes CEng status so highly valued by employers.”

Mr Robin Bates Assoc CIPD
Professional Standards Manager at IOP
How to apply

All details and application forms are available on our website at www.iop.org/CEng, where you can also watch our new video to find out more about how CEng can help you in your career.

Alternatively, simply call or e-mail us and we will send us the application forms that you need.

Not a member of IOP?

Apply to become a member today to ensure that you’re able to make an application for CEng. Simply go to www.iop.org to apply for membership.
