CPD report for reinstating your Chartered Physicist status

Members who wish to reinstate their CPhys status after more than 3 years have elapsed are required to demonstrate that they still have the knowledge, skills and commitment to CPD required of a practising Chartered Physicist. For this reason, they are required to submit a CPD report covering the intervening period, as well as an up to date CV and covering letter outlining any mitigating circumstances, where applicable.

For ease, the Institute provides a template for recording your CPD, designed to ensure it conforms to our CPD policy (i.e. to ensure that you consider the ways in which a learning activity has benefitted you). To access this, you will need to log in to the members’ website (so if you have also lapsed your membership you will need to reinstate this first) and choose ‘MyCareerPath’ from the left hand menu.

If you are unable to use ‘MyCareerPath’ (for example because your workplace internet security policy does not allow you to do so) please contact cpd@iop.org and we will send you a template in an alternative electronic format of your choice.

Exemptions

- Full or part time academic study for at least 6 months in the year prior to renewal may fulfil a member’s whole requirement, provided they are able to demonstrate the outcomes of such study. Again, this will require the submission of a CPD return.
- Members who have taken part in another (relevant institution) CPD scheme (e.g. IPEM) and submit copies of these records will be considered to have fulfilled their CPD requirement.
- Retired members who still participate in professional activities (e.g. branch events, conferences etc) should be aware that those activities may be used to fulfil CPD requirements, provided all other conditions are satisfied.

More information about CPD, and the support we provide, is available on the web at http://www.iop.org/membership/prof-dev

11.03 Reinstatement of CPhys
