## IoP Communicators an Outreach Conference 2022

In November we held a conference for sharing work and best practice amongst our members. With over 40 attendees in person and over 50 online it gave us the opportunity to hear from colleagues across the country and how they are engaging the public.

The event's focus was on "Reaching Out, Catching Up" and featured various talks on how members are delivering science to underserved communities. With the success of the event we are looking to host another again next year. A recap of the program can be found on the website: <https://iop.eventsair.com/iop-communicators-and-outreach-conference/programme>

## Outreach and Communicators 2023 Events

Next year we're looking to hold even more events throughout the year including once again hosting the communicators conference. We hope you will be able to join us for some of these events and will send out more details in the new year.

**Physics Hackathon (with Women in Physics Group)**

**Physics of Toys (with NLCP)**

**Communicating Complexity – Simply!**

**Physics Communicator Group Awards 2023**

**IOP Communicators and Outreach Conference 2023**
